Instructions for Downloading Scan Data Reports

Company scans and notes are saved in real time into your account area on the <u>www.allproshow.com</u> show website. You will be able to download your scan data and notes directly from the report website. To see your Contacts Report:

- Go to <u>www.allproshow.com</u>.
- On the top right of the screen, click on **Contacts Report**.
- Enter the email address you registered with and your Pin, which can be found at the bottom of the Home screen of the ALLPRO Show app under My Profile. To reveal your pin, select the eyeball icon.
- Download your report in Excel format.

The Excel file will contain scans and notes that **you** entered under **your** profile. The Sales Primary for your comapny will have access to all scans and notes submitted by everyone in your company. The scans and notes will show on the downloaded report in the order they were submitted through the app. You can manipulate the Excel sheet to suit your needs and save it to your PC. Changes made to the Excel file **will not** be reflected in the scan data online.
